

## Challenge: Provide a transparent Grants Management program. Solution: Oxygen Grants Management based on ANAO 'Better Practice Guide'.

Oxygen Grants Management provides a Grants Management solution that supports the NSW Department of Premier and Cabinet 'Good Practice Guide' and the ANAO 'Better Practice Guide'.

Oxygen's Grants Management solution brings together SAP's best of breed software to enable agencies to manage grants to the greatest benefit of the community.

The solution covers the standard grants management phases of:

**Planning:** Establishing the program with appropriate performance and risk assessment in place.

**Attracting and Accepting Applicants:** Manage the dissemination of information. Enable online forms to be submitted which automatically populate SAP grants system against which assessment outcomes can be recorded.

**Entering Funding Agreements:** Create financial agreement directly into SAP. Transact, plan and forecast against these agreements.

**Monitoring and Evaluating:** Evaluate programs and individual grants against financial and deliverable targets.

### Typical challenges

The NSW Auditor General recently identified the following issues:

- › Grants help but are poorly targeted
- › Lack of transparency in the grants process
- › Excessive red tape

### Realisable benefits

Oxygen's Grants Management solution overcomes these problems offering the following benefits:

#### Integrated end-to-end process

- › Reduced use of multiple spreadsheets to manage grants process
- › Access to all information in a single reporting suite, online real time
- › Integration of forms, transactions and documents into a single repository

#### Auditable process

- › Financial and subjective assessment stored for later reference
- › System enforced audited processes
- › Exception reporting to enable targeted audit processes

#### People first

- › Simplified online forms that populate into SAP without re-keying

- › Reporting suite includes modules for the agency, grantees and constituents

#### All within SAP

- › All functions remain within a single SAP platform

### People, technology, process – the SmartStart approach

With Oxygen's Grants Management solution you benefit from SAP commercial off the shelf software, configured with your local requirements in mind by Oxygen's consultants with years of State and Federal Government experience.

Oxygen has committed to improving and updating this solution in conjunction with the State and Federal Governments with maintenance updates available for existing users.

Our complete solution includes training and change management material to ensure your entire organisation is brought on a journey, with people, not technology leading the way.

#### About SmartStart by Oxygen

SmartStart by Oxygen solutions are pre-packaged offerings that allow organisations to get a product or service up and running for less cost, in less time, at a lower risk.

Many organisations are under pressure to innovate swiftly. Oxygen recognises this need and has developed a way of delivering standard SAP, or where it makes sense – complementary partner solutions across a number of key business functions or project processes, to help clients realise quick wins. The SmartStart by Oxygen approach reduces cost, decreases implementation time and delivers a defined set of benefits – your guarantee that what you see is what you get. It also brings together the best non-SAP solutions to help enable you to get more value from your core SAP investment.
