

Challenge: Optimise your SAP License investment. Solution: Flexera Software License Manager with Oxygen.

Oxygen's License Manager solution provides a platform which enables you to optimise the use of your SAP license. The best of breed reporting and analytics package from Flexera Software (formerly Aceso Software) combined with interpretation of your current SAP contract enables Oxygen to implement a management program to ensure that you are getting the best possible value from your SAP license investment.

Flexera Software License Manager for SAP Business Suite

License Manager allows you to centrally monitor and analyse your SAP license usage to help ensure accurate and appropriate licensing. It provides insight into employee SAP use, allowing you to better plan and budget for future SAP purchases.

Oxygen contract interpretation and management

Experienced Oxygen consultants will interpret your current SAP contract and analyse the outputs from License Manager to optimise your current license spend and put processes in place to ensure value is achieved from all future license transactions.

Typical challenges

Do you have licenses to manage? The below issues indicate there could be more value extracted from your SAP license investment:

- › Do you know exactly what is included with the different levels of SAP licenses?
- › Do you recharge the business based on actual system usage?
- › Do you know if you are compliant with your current SAP contract?
- › Do you have duplicate or idle licenses?

Realisable benefits

The Oxygen solution utilising License Manager overcomes these problems offering the following benefits:

Optimise licenses requirements

- › Remove duplicate or idle licenses
- › Re-categorise licenses to the appropriate level

Reduced risk

- › Ensure compliance to the existing SAP contract
- › Identify who is running which processes in SAP

Maximise utility

- › User defined reporting

- › Centralise and automate the collection and reporting of SAP license usage

All within SAP

- › All functions remain within SAP
- › Additional software is supplied by certified SAP solution providers

People, technology, process – the SmartStart approach

With Oxygen's SmartStart License Manager solution you benefit from the combination of Oxygen's experience and Flexera Software's best of breed license management software.

Oxygen consultants will work with you to implement the software and integrate license management processes into the day to day operating procedures of your organisation.

Our complete solution includes training and change material to ensure your entire organisation is brought on a journey with people not technology leading the way.

About SmartStart by Oxygen

SmartStart by Oxygen solutions are pre-packaged offerings that allow organisations to get a product or service up and running for less cost, in less time, at a lower risk.

Many organisations are under pressure to innovate swiftly. Oxygen recognises this need and has developed a way of delivering standard SAP, or where it makes sense – complementary partner solutions across a number of key business functions or project processes, to help clients realise quick wins. The SmartStart by Oxygen approach reduces cost, decreases implementation time and delivers a defined set of benefits – your guarantee that what you see is what you get. It also brings together the best non-SAP solutions to help enable you to get more value from your core SAP investment.
