

Challenge: Provide a flexible mobility solution to extend your SAP Business Processes.

Solution: Oxygen SAP Mobility with Sky Technologies.

The Oxygen SAP Mobility solution provides a rapid approach to delivering a scalable and flexible mobility solution utilising the SkyMobile framework from Sky Technologies. Oxygen and Sky Technologies have many years experience in implementing solutions for SAP customers. The combination of Oxygen's SAP experience and Sky Technologies' proven mobility framework (SkyMobile) provides an integrated approach to delivering a repeatable solution for any SAP client who is considering mobility as a key business initiative.

The need for companies to mobilise their key SAP applications such as PM, CRM, IM, WM, SCM, FI & HR is growing. Mobilising any business process within SAP requires both an extensive knowledge of SAP and in-depth experience in mobility. Oxygen as a SAP Services Partner and Sky Technologies as a SAP Software Partner combine to provide any client a delivery partnership with extensive experience and a functionally rich software solution referencable in the market today.

Typical challenges

- › Supporting new business processes for a mobility initiative
- › Supporting other discrete applications when deploying a mobility solution
- › Complex middleware required to integrate generic mobile applications into my SAP installation

- › Developing additional and specialised 3rd party development skills within my SAP team

Realisable benefits

A SmartStart solution utilising Oxygen & Sky Technologies overcomes these problems by offering the following benefits:

New Business Processes

- › No new business processes in SAP are required prior to being mobilised on the SkyMobile framework
- › Oxygen can rapidly mobilise existing business process, allowing your organisation to realise the business benefit you are looking for in mobility solution

Reduced Infrastructure Cost

- › SkyMobile is certified by SAP and runs inside your SAP environment
- › No additional servers are required to run the SkyMobile framework

No Middleware Required

- › No 3rd party middleware or integration products and their associated infrastructure are required to implement a SkyMobile solution

Utilise existing SAP skills and support

- › Your existing SAP administrator and/or developer can manage and further enhance any SkyMobile solution

- › SkyMobile utilises a sophisticated and easy to use 'Workbench', written in ABAP that runs inside SAP
- › No new technology training or skills sets are required as the SkyMobile workbench has the same look and feel as an SAP application
- › Can be supported directly via Oxygen's AMS team as a single contact point

Key Differentiators of the Oxygen solution with Sky Technologies are;

- › Runs Inside SAP
- › Supports all major platforms
- › Additional software is supplied by certified SAP solution providers
- › Easy to implement and manage
- › A complete mobile infrastructure

People, technology, process – the SmartStart approach

With SAP Mobility SmartStart by Oxygen you benefit from the combination of SkyMobile, a SAP Certified mobile framework from Sky Technologies and Oxygen's years of SAP implementation experience. This cooperation can deliver a flexible mobility solution to extend your SAP Business Processes.

About SmartStart by Oxygen

SmartStart by Oxygen solutions are pre-packaged offerings that allow organisations to get a product or service up and running for less cost, in less time, at a lower risk.

Many organisations are under pressure to innovate swiftly. Oxygen recognises this need and has developed a way of delivering standard SAP, or where it makes sense – complementary partner solutions across a number of key business functions or project processes, to help clients realise quick wins. The SmartStart by Oxygen approach reduces cost, decreases implementation time and delivers a defined set of benefits – your guarantee that what you see is what you get. It also brings together the best non-SAP solutions to help enable you to get more value from your core SAP investment.
